### THE COLOGNE

"It's the intense quality of it. It's the warm, warm, it reminds me of Capri. It reminds me of the beach here, it reminds me of Puerto Rico. It reminds me of Miami in the 1980s."

### THE SHADES

"I love the design. They're a classic. I think that they are the best sunglasses that were ever worn up with this brand for the only ones that were. They have good in simplicity."

### THE ART EXPERIENCE

"The very subtle influence of Art Deco (at Fashion Week) leaves the architecture of a period that is so rich. It definitely has a contemporary edge. The use of materials — there's some things that remind them."

CARLOS BETANCOURT   
 The artist mesmerizes fans with eccentric kaleidoscopes and eclectic mixed media. A global citizen, he is inspired by artisans he encounters both in his travels and at home in Miami.

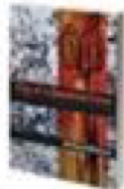

### THE ARCHITECTURE

"The organic lines of the House Martin & Martin — it's a mix, very low example of that period in Miami. The way I would think about it and see the profile. It has such an exciting space."
